YOU ARE INVITED

at any time to visit my gardens and see the flowers in bloom, which is from May until the frost takes them in October. My gardens are located on the State Road two and one half miles south of Princeton Center. To reach them from Worcester go to Holden Center and turn right and it is five miles on route 120.

GUARANTEE

All stock offered in this catalogue is guaranteed to be true to name and free from disease. Although we try to be very careful in handling our stock, mistakes may happen, however in case of an error we will gladly replace or refund purchase price of any stock that does not prove true to name.

TERMS

Cash with order, or 25% deposit will hold the stock until shipping time. I prepay all orders that amounts to \$2.00 or over to any point in the United States. Orders under \$2.00 please add 10% of the order to pay postage. No order accepted for less than \$1.00.

ORDER EARLY

Just a word about ordering early, so that you won't be disappointed. Some varieties are grown in thousands while others that are new and scarce we still have a very small stock, and the first orders received are the first to be filled.

SHIPMENTS

We ship a large amount of orders in the fall, up to about December 15th. without danger of freezing, and then we start shipping again about March 1st. Please state when ordering whether you wish stock sent in the fall or held until spring.

DESCRIPTIONS

If you receive ten catalogues from ten different growers on Gladiolus, there probably will not be two that will describe the colors alike. Each year I am going to describe as many as I can by using Ridgeways Color Chart. The ones that I have marked thus (*) are my own descriptions and any one wishing to use the descriptions in their catalogues may do so.

GLADIOLUS

Don't you think it is about time that we all get together and call this beautiful flower by its correct name, which is pronounced by the American Gladiolus Society (GLAD-I-OH'-LUS). The bulbs should be planted in the spring, after all danger of frost is over. Plant from four to six inches deep, according to the lightness of the soil and the size of the bulbs. After the name of each variety I have added the name of the originator, and the approximate number of days before blooming. (Prim) means Primulinus or hooded variety.

VARIETIES

AFLAME (Hornberger) (Prim) (91 Days) Begonia rose shading to bright orange flame near the edge. This is one of the finest varieties.

ALICE TIPLADY (Kunderd) (Prim) (78 Days) (*) Bittersweet pink, outer edges tinged scarlet; reverse side of petals scarlet. Throat buff-yellow veined scarlet. This is a very handsome large flowering Prim.

ANNA EBERIUS (Diener) (85 Days) Deep rhodamine-purple, shading into very deep bordeaux center.

BERTY SNOW (Mair) (82 Days) Pinkish lavender. Many growers think this is the very best lavender. Large well placed flowers on long spikes.

BETTY NUTHALL (Salbach) (111 Days) Warm coral pink with pale yellow throat markings. The florets are often six inches across, of splendid substance and placement. Eight or more open at once.

BREAK O'DAY (Purple) (Prim) (73 Days) Large, soft LaFrance pink, flushed over with deeper pink at edges. There is a zone of yellow on lower petals.

BUTTERBOY (Kunderd) (Prim) (78 Days) (*) Upper petals baryta-yellow; lower petals amber-yellow, with a narrow carmine centerline. There is a flecking of pansy purple deep in the throat.

BYRON L. SMITH (Kunderd) (84 Days) (*) Glistening white suffused pale-lilac. Throat marguerite yellow with a stippling of Chinese violet at the base. Flowers are medium size and six or more open at a time.

COPPER BRONZE (Kunderd) (94 Days) A very striking copper bronze color. One of the most distinctively beautiful and artistic of its kind.

CRACKERJACK (Groff) (102 Days) Large flowers of velvety dark red. Throat spotted with yellow and dark maroon.

CRIMSON GLOW (Betscher) (91 Days) (*) Scarlet-red; sometimes splashed carmine. Has a purplish carmine blotch on lower petals. Throat Marguerite-yellow flecked carmine. An old timer that is still one of our best reds.

DEL ROSA (Burbank) (87 Days) Bright rose red, with a white blotch in the throat.

DORRITT (Kunderd) (90 Days) (*) Glistening white lightly suffused pale rosolane-purple; edges heavily splashed Tyrian-rose. Throat has a feathering of rosolane-purple with the mid-rib amaranth-purple. This Gladiolus is one of exquisite coloring.

E. J. SHAYLOR (Kunderd) (75 Days) Deep, rose-pink to rose color; outer edges and buds show a distinct rose color. Throat of lower petals delicately penciled rose-red.

ELF (Diener) (81 Days) Lemon yellow when in bud. Open flowers pure white. Lip delicate lemon. Large flowers on a perfectly built spike. Even the smallest bulblets will produce a large flower spike.

ELIZABETH TABOR (Hinkle) (Prim) (52 Days) Delicate rosy pink. Throat yellow with a rich dark crimson blotch. Flowers are very large. This is the earliest Gladiolus I have in my garden.

EVELYN KIRTLAND (Austin) (90 Days) LaFrance-pink, overlaid rose-doree; throat blotched soft scarlet-red. Very pleasing color, arrangement good, strong upright grower.

GENESEE (Davis) (Prim) (100 Days) Pale yellow, almost a self color. The placement of the flowers and its floescence could not be improved.

GERTRUDE ERREY (Errey) (92 Days) Light salmon or shell-pink on the outer part of the flower shading off to almost white in the center; a spot of deeper color in the throat.

GOLD (Hoeg) (77 Days) (*) Marguerite-yellow, occasionally showing a faint splash of deep rose-pink. Throat barium-yellow veined and peppered with pansy purple.

GLADIOLUS—Continued

GOLD EAGLE (Austin) (70 Days) (*) Naphthalene-yellow suffused lightly on the upper petals and heavier on the lower petals with pinard-yellow; the tips and outer edges of the petals are often splashed faintly with amaranth-pink. Throat is lightly peppered with pansy purple. Very nicely ruffled.

HEAVENLY BLUE (Pfitzer) (91 Days) Pale sky blue with few dark blue lines in the throat. Though rather pale, I consider it the finest light blue variety.

HENRY FORD (Diener) (97 Days) A very dark rhodamine-purple. Color very similar to Anna Eberius but it is clearer and not flaked so much.

HERADA (Austin) (86 Days) Purest lavender mauve, deeper in the throat. Immense blooms of glistening lustre. In a class by itself.

JACK LONDON (Diener) (96 Days) Light salmon with vermilion stripes. Canary-yellow throat with ruby stripes. Blooms well placed and many open on strong tall spikes.

JEWEL (C. Zeestraten) (Prim) (63 Days) (*) Under color pale pinkish-buff, suffused very lightly with geranium-pink and fading out toward the center. Reverse side of petals suffused heavily with geranium-pink, and tinged a little yellow. Throat is a clear barium-yellow.

KUNDERD'S YELLOW WONDER (Kunderd) (72 Days) (*) Naphthalene-yellow lightly suffused picric-yellow. Throat picric-yellow. Buds light greenish yellow.

LONDON SMOKE (Diener) (85 Days) Dark smoky pink overlaid with slate. One of the best smokies.

LOS ANGELES (Houdyshel) (Prim) (87 Days) (*) Upper petals erosine-pink; lower petals pale rhodonite-pink lightly suffused erosine pink. Throat rose-red with a carmine centerline.

LOUISE (M. F. Wright) (95 Days) (*) Ground color white overspread phlox-pink; outer edges liseran-purple. Throat feathered phlox-purple with an amaranth-purple center line. Blooms wide open and very handsome.

MAIDEN'S BLUSH (Grullemans) (Prim) (58 Days) Flesh-pink, lightly flaked with old rose; throat suffused mallow-pink. Very early and a profused bloomer.

MARMORA (Errey) (96 Days) Very large wide open flowers. Color is a wonderful shade of gray with a pale purplish blotch. Eight to ten perfectly placed blooms open at a time.

MARNIA (Kemp) (89 Days) Beautiful live orange tinged with pink, practically an orange self. Tall, strong grower and a good propagator.

MING TOY (Kunderd) (Prim) (66 Days) (*) Buff-yellow flushed light coral-red. Throat pinard-yellow flecked pansy-purple deep in throat. Buds light coral-red tinged with yellow.

MR. W. H. PHIPPS (Diener) (112 Days) Beautiful LaFrance-pink overlaid light salmon rose. Lower petals faintly striped and speckled ruby. Flowers are enormous, ten or more open at once.

MRS. F. C. PETERS (E. N. Fischer) (87 Days) Very beautiful orchid lavender with darker blotch. Many blooms open. Tall, strong grower. This is a Gladiolus that should be in every garden.

MRS. FRANCIS KING (Coblentz) (92 Days) (*) Jasper-red shading lighter toward the center; outer edges splashed scarlet. Throat Marguerite-yellow feathered and blotched amaranth-purple. Buds and reverse side of petals scarlet.

MRS. FRANK PENDLETON (Kunderd) (72 Days) (*) Ground color white suffused thulite-pink, edges sometimes clear white. Throat has a very large rose-red blotch shading to velvety carmine at centerline of each petal.

MRS. LEON DOUGLAS (Diener) (94 Days) Salmon-rose striped with flame and scarlet. One of the tallest, largest and showiest glads in existence. Several immense blooms open at a time.

GLADIOLUS—Continued

MRS. VAN KONYNENBURG (Pfitzer) (95 Days) (*) Pale aniline-lilac, suffused manganese-violet. The suffusion of manganese-violet is much more prominent on some blooms than others, making the flowers much darker. Throat has a feathering of Hyacinth-violet with a center line of blackish red-purple.

MYRA (Kunderd) (Prim) (91 Days) Deep salmon-pink over yellow ground. Yellow throat with pink lines. Very showy.

NEOGA (Kunderd) (Days) Dark garnet red, deeper throat. A rich dark red, slightly ruffled.

1910 ROSE (Kunderd) (64 Days) (*) Rose-pink shading to rose color, sometimes splashed rose red; lower petals slightly marked rose in throat with white center line. Very early.

OPALESCENT (Purple) (77 Days) Wonderful spikes of very large, rose lavender. A pure self color with lilac throat lines.

PEACE (Groff) (86 Days) Pure white with tyrian-rose blotch on lower petals.

PFITZER'S TRIUMPH (Pfitzer) (92 Days) (*) Geranium-pink, heavily suffused with scarlet on tips and edges, and shading to LaFrance-pink in deep center. Throat has a scarlet-red blotch shading to carmine at center line; deeper in the throat it is creamy white flecked with carmine.

PINK WONDER (Kemp) (85 Days) (*) Ground color white lightly suffused thulite-pink, edges splashed rose color. Throat primrose-yellow with a feathering of amaranth-purple. Immense wide open blooms.

PRIDE OF LANCASTER (Kunderd) (89 Days) Shrimp-pink, suffused peach-red; throat blotched scarlet-red. A very fine color. Beautifully ruffled and fine in every way.

PRINCE OF INDIA (Childs) (84 Days) Color varies from light to deep smoky gray, banded and freely penciled with deep slaty blue, mottled white. A variety of greatest oddity and beauty.

QUINTON (Kemp) (Prim) (78 Days) Coral-pink, blending to a deeper tone at outer edges of petals. The yellow lip is neatly lined pink.

ROANOKE (Kunderd) (Prim) (Days) Rich yellow, with rose-red penciling. One of the older varieties that is still good.

ROSE ASH (Diener) (91 Days) Corinthian-red shading into ashes of roses on the outer edges. Lower petals light yellow speckled with ruby.

SARABAND (Salbach) (100 Days) Very large, wide open flowers of rich velvety bordeaux. Pistils deep rose red.

SCARLET WONDER (Cowee) (74 Days) Mammoth pure deep scarlet flowers on tall strong stems.

SEABROOK GEM (Rowe) (84 Days) (*) Pale rose-purple suffused with mallow-pink. Throat pale rose-purple with a feathering and centerline of amaranth-purple. Blooms well placed on tall slender stems.

SENTINEL (Errey) (Days) Salmon pink, with darker feathering, and a crimson blotch on a cream ground. One of the best of the salmon pinks.

SOUVENIR (Jonkheer) (Prim) (77 Days) (*) Pinard-yellow with a flecking of pansy-purple deep in the throat. Lower petal has a very narrow crimson center line.

SWEET LAVENDER (Colman) (67 Days) A lovely combination of light lavender-pink blending into creamy-yellow, with very prominent magenta-red blotch. Not a flaw with this variety.

SWEET ORRA (Kunderd) (Prim) (68 Days) Light yellow or sulphur color, with a mallow penciling.

TYCKO ZANG (Austin) (96 Days) Immense salmon pink, white throat faintly dotted cerise. Tall, strong grower and a good propagator.

VANITY FAIR (Briggs) (Days) Very tall healthy grower of rose-pink with deeper throat blotch. Many open at once.

GLADIOLUS—Continued

WHITE PIGEON (Kunderd) (69 Days) A wonderful, pure all white. Large blooms, six to eight open at once.

WILBRINK (Hopman) (77 Days) (*) Pale Persian-lilac shading to very pale livid-pink. Throat Barium-yellow peppered and striped amaranth-purple. Very early and one of our best cut flower varieties.

DAHLIAS

The tubers should be planted in the spring, after all danger of frost is over. Plant five or six inches deep, and three to four feet apart. Always plant the tubers flat. Dahlias need a great amount of water to give them the size and to have them flower heavily.

IRIS

The very best time to plant Iris is just after the blooming season, which is from July 15th. to the middle of September. This gives the plants sufficient time to develop a good root growth before freezing weather. We begin digging them around July 20th. (S) means standards, the three upstanding petals; (F) means falls or the three lower petals. The Name just after the variety is that of the originator, and the number is the exhibition ratings.
